

Acclaimed Bose® sound for home and school.

Wave® music system

Special educators' savings for University of Florida.

The lifelike sound of the award-winning Wave® music system sets a new standard for what you can expect from something so small. We invite you to compare it to large, complicated stereos costing much more. Add the optional Multi-CD Changer to enjoy your CDs for hours, or the optional Connect Kit for iPod® and iPhone® to bring your playlist to life with Bose sound. The performance of the Wave® music system, and the performance of other acclaimed Bose innovations, dramatically expands the possibilities for audio at home and at school. Take advantage of your educators' savings and choose among music systems, home theater systems and more.

Acoustic Wave® music system II
Our best-performing all-in-one music system. Take it with you to enjoy music where you like, indoors and out, living room to student assembly areas.

SoundDock® Portable digital music system
Slip your iPod or iPhone into the dock for room-filling sound – then take this system to other rooms or even to student events outside. The lithium-ion battery provides more power than most rechargeables.

L1® Compact portable line array system
Use it for music or as a public address system for groups of up to 100. It's light and sets up in under a minute – convenient for home or school.

Educators' savings only available at: 1-877-802-0474
